

2010 Commitment Training

Information Details

Schedules: The current class roster and class dates are posted on the website under the Schedules link. In case of changes made due to sickness or weather, I will use the listed contact information on the Enrollment form that is filled out the first night of class.

Certificates: Attendees will need to attend 15 out of 18 classes to receive a certificate.

Pre and Post Tests: This will be a pre and post test for each group. This allows us to determine the speed and content of the classes. We understand that no ones enjoys taking tests, however, we also know that techs don't want to sit in a class that is too basic for their experience and knowledge.

Dress Code: Casual clothes are fine. Dirty work clothes and shoes should be changed before arriving. While this is a rare issue, greased covered techs will be asked to clean-up before sitting down for class.

Conduct: Professional conduct is a must if we are going to improve our industry. Vulgar language and profanity will not be tolerated.

Payment and Seat Details: When a seat is reserved with a down payment, the agreement is that the seat is now *yours*, and that the balance will be paid by the end of the calendar year. If the technician stops attending, the seat price is still owed. There are a few exceptions to this rule, but these must be discussed with me before any decision will be made. I strongly suggest to all payees / shop owners that you have a written agreement with your technician(s) before the second night of class so that both parties know what will happen if the decision is made to stop attending class. The agreement is between the payee and the attendee, not Unique Training Solutions LLC. If the seat becomes open during the year, a substitute technician can be used only if he has been through previous Unique Training Solutions or LTS North training. This will have to be discussed with me in advance before they attend. Any questions / concerns should be made to me directly via e-mail or phone before paying a down payment.

Costs: 1st seat \$1395

2nd seat \$1195

**3 or more seats: \$1050 / each (the first two seats still
have to be paid for at the prices above).**

So, if two seats are bought the total is: \$2590. Three seats would be \$3650. Four seats are: \$4690. Five seats will be a flat rate of \$5250. For six seats or more, each seat is \$1000 per seat. Seat prices are accumulative. Please contact me concerning these prices if there are questions.

Down payment and Monthly Payments: \$250 per seat is expected on the first night of class. If a check is not brought please inform me before class begins. The down payment money reserves the seat for the year. I will send out invoices only three times during the year via e-mail or regular mail. It is up to the payee how they want to handle the payments. Three or four equal payments work well, however, it is entirely up to you. I will send final statements at the end of November and all balances must be paid by December 15th or I will refuse future mobile and commitment training business and will also pursue the money owed via the legal courts.
